INFORMATION LETTER

V International Forum

«COGNITIVE NEUROSCIENCE – 2022»

December 9-10, 2022
Yekaterinburg

Dear colleagues!

We are happy to invite you to take part in the annual V International Forum "Cognitive neuroscience - 2022". In recent years, the Forum has become a significant event that brings together Russian and foreign experts in the field of cognitive neurosciences, as well as in related fields of fundamental and applied science.

The purpose of the Forum is to integrate the experience of leading experts in fundamental and practical cognitive neuroscience and also to determine the prospects for the development of modern neuroscience and cognitive technologies.

The main topics:

- Neuropsychology, psychogenetics and cognitive development
- Clinical Psychology and Mental Health
- Neuro- and psycholinguistics
- Neuro- and cognitive heuristics
- Behavioral economics and neuromarketing
- Psychological well-being in the context of digital transformation
- Cognitive aspects of aging

- Psychophysiological mechanisms of learning
- Practical application of cognitive technologies

"Cognitive neuroscience - 2022" will feature plenary session, sections, symposia, business roundtable and project demonstrations. Sessions and events at the annual meeting are designed to provide attendees with a range of opportunities, including scientific enrichment, career development, and professional networking.

Forum venue: Ural Federal University named after the first President of Russia B. N. Yeltsin. 620002, Yekaterinburg, Mira str., 19.

Forum organizers: Ural Federal University named after the first President of Russia B.N. Yeltsin with the participation of Russian Academy of Education, Russian Psychological Society, Russian Academy of Sciences, Branch Union «Neuronet», UMMC-Health Center for Cognitive Technologies.
